

St. Mary's Health Care System Inc, ®
Faculty Requirement Summary

The following requirements must be completed before an instructor or faculty member may begin instructing his/her students at St. Mary's Health Care System, Inc®. Proof of completion for the requirements stated below should be kept on file at the educational institution in the instructors or faculty members file. Proof of completion should be made available to St. Mary's upon request.

Job Requirements:

- Current job description including clinical responsibilities
- Current clinical competency within the last year

License & Certification Requirements:

- Current license with annual primary source verification
- Current American Heart Association BLS certification
 - If duties involve areas where staff are required to have ACLS and/or PALS, supervising faculty must have these current certifications as well

Additional Requirements:

- Current criminal background check
- Appropriate insurance coverage to protect against any injury and/or illness that may occur while on St. Mary's premises.
