## **eRx Consent**

ePrescribing is a federally mandated initiative that requires all physicians to prescribe medications electronically beginning in 2011.

ePrescribing software sends your prescriptions over the internet to your pharmacy in a safe, secure way through the same technology used by credit card companies. This helps protect the privacy of your personal information.

ePrescribing software also lets your physician see important information like drug interactions and your prescription history.

The benefit to you is:

- Less confusion over handwritten prescriptions or unclear phone calls.
- Reduced possibility of medical errors.
- Less chance of adverse drug reactions.
- Fewer trips to drop off at the pharmacy.
- A safer, faster, easier way to get your prescription filled.

Patient Consent:

I agree that Endocrine Specialists of Athens may request and use my prescription medication history from other healthcare providers or third party pharmacy benefit payors for treatment purposes.
